

# G-DC-M550

Sliding Gate Motor

## Auto Reverse on Obstacle

Smart version with auto-reverse when hitting obstacle during closing.

KG  
**550**

## Maximum Gate Weight

Maximum support gate weight up to 550kg

## DC Power Supply Mode

Able to operate on DC power supply

\*All image and specification is subject to change without prior notice.

Technical Data	G-DC-M550
Power Supply	AC 220-240 V 50HZ, Single Phase
Power Consumption	80 watts
Motor Power Supply	24 VDC
Motor Speed	2800 rpm max
Ambient Operating Temperature	-20°~ 120°C
Accessory Power Supply	12VDC / 24 VDC
Maximum Sliding Gate Weight	550kg
Sliding Gate Speed	12 meter/min
Safety Clutch	auto-reverse electronic counter technology
Protection Class	IP55
Remote Controller	2-channels, 330 Mhz UHF ( 2channels - 433Mhz )

## Ordering Info

### Model

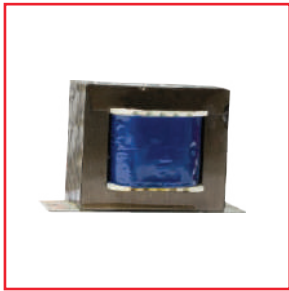

G-DC-M550

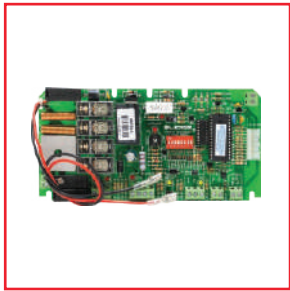

Gear Rack

Battery(Ranger)

Transformer  
(12-9-0-9-12-3amp-1)

Autogate Panel  
(GCP-SLD-DC777)

Remote Control  
(RG-CST-016)
