IDGard

Passive Long Range Card Reader

IDG-8710P

Features

-Protections function for output, water proof and damp proof design,
 suitable for outside environment
-Glass discharge tube and semiconductor discharge circuit for output -
RS485 output adopting multilevel thunder protection, bearing 15KV
 static strike
-Excellent material for all products with strict examination, good
 consistency and steady capability
-Protected circuit for power to avoid damage by man-made operating error

Specifications

+ Size   :260 X 260 X 35(mm)
+ Color + Voltage + Current   :Dark Grey
+ Ambient Temperature   :DC 12V
+ Reading Range   :≤100mA
+ Output Format   :-10˚C ~ 70˚C
+ Card Type   :70 ~ 100cm
+ Communication Distance   :Wiegand 26/34, RS485/232
                                    :EM-ID Mid-distance Card :≥100cm
                                     (Distance may change due to enviromental interferences)
+ IP Rating   :IP67
